provide mentorship and support by sharing their experiences, answering questions, and offering guidance to current students and fellow alumni on topics relating to: React, Next.js, JavaScript, TypeScript, Node & Testing.

MentorCruise.com | *Mentorship program*
Sept 2022 - Jun 2024

Engaged in a paid one-on-one mentorship program, collaborating with *senior developers* through *code reviews & paired programming* sessions, focusing on modern best practices.

PERSONAL PROJECTS

FlipDish Technical Takehome Assesment 🔗
Vite • TypeScript • Tailwind • React • Jest • Vitest

This project is a menu renderer for Flipdish restaurant menus.
It feteches data from an API and renders a menu that customers can order from

ClearScore Ideaboard 🔗
Vite • TypeScript • React-Hook-Form • Zod • Tailwind • Vitest • ShadCN

Frontend technical assessment showcasing *clean code* and *testing*, in a modern responsive React application. Notable features include *local storage persistence* and *sorting*.

Thymia 2-back game 🔗
Next14 • TypeScript • Tailwind • SSR • Jest • React Testing Library

Gamified adaptation of classic cognitive test using *Next.js* with global state management, integrating *timed intervals*, error logging, simulated post requests, and toggle functionality for *event log* display.

Movie Land 🔗
React • CSS • Redux • API call • Jest

Developed a **React** application with pure CSS and **Redux** for state management. The app integrates with an external API to fetch and display movies, allowing users to preview, favorite, and add movies to a watchlist. Features include a search functionality and infinite scrolling to enhance the user experience. Implemented state management with Redux to handle user interactions and data flow effectively.
